SYNOPSIS:

Approval of Resolution No. 2024-3265 pertaining to a delegation of authority to the City Manager relating to necessary procurement actions and activities required to address the requirements upon the City relating to Florida Department of Environmental Protection (FDEP) Stipulated Penalties OGC File No. 24-1290 and Amended OGC File No. 22-0456 is requested.

FISCAL/STAFFING STATEMENT:

The need to address the requirements of the FDEP in order to address the requirements upon the City relating to the requirements of the FDEP and the penalties arising from the consent orders in OGC File No. 24-1290 and Amended OGC File No. 22-0456 is critical to the City’s efforts to operate and maintain a quality system of public utilities for the citizens and customers of the City. The purpose of Resolution No. 2024-3265 is to provide plenary authority to the City Manager to address time sensitive and ongoing procurement actions and activities that will need to be implemented over time to ensure that the City is making its best efforts to address the requirements of the consent orders and the FDEP.

BACKGROUND:

As the City Commission was advised at its meeting of June 10, 2024, the City has been cited for various violations under Consent Order OGC File No. 24-1290 and additional violations under Consent Order OGC File No. 22-0456 by the FDEP and stipulated penalties were assessed. The FDEP assessed the penalties due to a significant amount of non-compliance violations pursuant to Section 403.161(1)(a) and (b), *Florida Statutes*, and Rules 61-604.13(1) and 62-620.30(5), *Florida Administrative Code*, based on the prevention not to “cause pollution so as to harm or injure human health or welfare, animal, plant or aquatic life or property” and also “to violate or fail to comply with any rule, regulation, order, permit, or certification adopted or issued by the department pursuant to its lawful authority”. In lieu of the FDEP recommended penalty of \$828,433 in civil penalties, the City was allowed to off-set the penalty amount by implementing a pollution prevention (P2) project or an in-kind project. A P2 project is where the City can elect to implement

a process improvement that reduces the amount of pollution that enters the environment; by conserving resource use, or by minimizing waste generation. With the elected P2 projects the City will pay only \$127,763.35. The City will be required to implement the P2 projects in a timely manner under the consent orders. Procuring goods and services in an expedited manner is, thus, critical.

The provisions of Resolution No. 2024-3265 provide authority for the City Manager to engage in procurement actions and other activities in an expeditious manner and authorizes the City Manager to take all actions needed for the City to address the needs of the City relative to the consent orders and the requirements of the FDEP. The Resolution provides that the procurement activities of the City Manager are subject to review and certification of compliance with the Resolution and controlling State law by the City's Finance Director and the City Attorney in order to ensure pre-audit and post-audit compliance. Thus, there is a check and balance provision incorporated into the action. The Resolution also provides for reporting by the City Manager and inclusion by the Mayor in some procurement activities.
